

A.29 All energy can be classified as either *kinetic* or *potential*. All forms of energy that involve *motion* are kinetic. All forms of energy with the *potential* to become kinetic energy are potential.

Kinetic Energy (5 types)	Potential Energy (5 types)

Part B: Energy Transfer

The Law of Conservation of Energy

Energy cannot be created.
Energy cannot be destroyed.
Energy can only be changed from form to form.

Copy the Law of Conservation of Energy *three times*
